

Supp Regs for the Lakawanna Rally - August 12th 2016 Okanagan Thompson Friday Night Series

The Friday night series is modeled after a similar series down south that has been around several decades. This is the first series in a long time designed just for people in the Okanagan Thompson area and with the limited experience that exists, the rallies will be organized with straight forward instructions. There will be 6 events on the second Friday of the month starting April through September. The fifth event will be August 12th 2016 Organized by WCRA Rallymaster Anthony Turgeon with assistants Janine Turgeon and Jim Bowie.

Series coordinator: Jim Bowie jim.bowie57@gmail.com. 250-503-6068 or home 250-546-6001.

Format

The rally will be a TSD rally run under the CARS General Competition Rules and the BC TSD rules. The rally will be approximately 175 km, percentage of pavement/gravel TBA, and there will be one 10 minute optional fuel and food stop.

A TSD (Time Speed Distance) rally means that teams are scored on their ability to match, as closely as possible, the given route, schedule and speeds. Regularity stages will have various average speeds for competitors to match and hidden checkpoints along the route will record the specific times that teams pass by. Penalty points will be assessed for cars that pass controls early or late. Teams will be given a generous time allowance on transit stages to get to the start of the next regularity. Equipment The route will not be far from major centres and will be within cell phone range most of the time. The standard safety equipment will be recommended That is a safety triangle, first aid kit and fire extinguisher with a 5 BC minimum rating. If auxiliary lights are attached they must be wired so that they go off when low beam come on. There is to be no loose articles in the car. There will be tech inspection prior to the start to ensure compliance. In case of any emergency, contact Jim Bowie at 250-503-6068

Scoring

Timing controls will be in regularity stages only, at various unannounced and hidden locations.

Scoring is one point per second early or late with a one second grace period both ways. The maximum penalty that will be assigned for a single control is 300 points or 5 minutes. The maximum penalty for a regularity is 600 points. Check points will close as soon as all cars have gone by or 10 minutes after the last car is due. Ties will not be broken.

Exceptions to scoring: A competitor coming to an accident is required to stop and render assistance if needed. Time allowance forms will be proved so competitors can carry on without penalty. At-fault time allowance will carry a 20 second penalty. No-fault time allowances will be penalty free. This will be covered in detail at the drivers' meeting. Time allowances are to the end of the regularity with competitors expected to catch up the time in the next transit. Maximum Time allowance is 10 minutes, as controls close 10 minutes after last car is due and there then is no way to record a score.

Classes

Novice Class: Defined as having ran 2 rallies or less as of Dec 31, 2015.
Open class: Defined as having ran 3 rallies or more as of Dec 31, 2015.
